Pursuing Electronic Data
INTELLIGENCE™

HIPAA transaction compliance without high costs, IT resources, or disrupting existing claims processing

With over 15 years delivering custom EDI services, Tesia-PCI continues to find revolutionary products and services to simplify the delivery of electronic data intelligence.

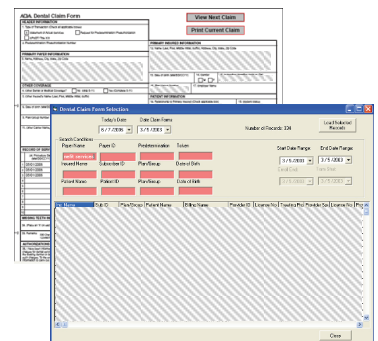

Is your firm out of compliance and at-risk under HIPAA Transaction guidelines & requirements?

If your firm is not accepting EDI transactions today, you may be out of compliance under HIPAA rules and regulations. Understanding you may not want the headaches or high resource costs of developing or buying a complete EDI solution, Tesia-PCI presents a non-technical way to accept EDI without operational work-flow changes or complex IT knowledge.

Choice is a good thing — especially if you never knew you had it!
