

Lowering A/R
with your fax
machine!

TesiaFax™

Small Steps with
FULL EDI VALUE

TesiaFax™ is a service that allows you to send claims to select dental insurance companies using your fax machine, without a computer, custom software or complex technology to learn!

How does TesiaFax™ work?

When you mail claims, you take a risk they will never be received by the insurance company or they will take a long time to be processed once received. With TesiaFax™, each claim you send is promptly converted to an electronic claim and routed to the proper insurance company using Tesi-PCI's robust network of Payor connections. Each claim is assigned a tracking number for easy tracking and any rejected claims are returned in an easy-to-read report right to your fax machine.

No software required
No Internet required
Month-to-Month service

Can I still send claims through my current vendor?

Absolutely! However, we hope you will take advantage of our low-cost, efficient services instead of paying higher pricing through other vendors. Tesia-PCI offers many cost-effective solutions that are already benefiting thousands of dentists.

Valuable Reports:
 ■ Tracking Reports
 ■ Claim Status Reports
 ■ EOB's for specific Payors

Easy as 1, 2, 3

- 1) Call (800) 724-7240 and request an application for TesiaFax™.
- 2) Complete and fax the forms back to the number provided at the bottom of the application.
- 3) Within 48 hours, you will receive a fax confirmation with your "Welcome" letter, account information and a sample of the report you will receive daily once you have begun sending claims.

For more information on TesiaFax™, or to start submitting claims today, call Robert Porterfield at (800) 724-7240 ext 4703.
